📄 PROFILE

I am a motivated Web Developer eager to be challenged. Three years in Quality Assurance and product management for a high-scale Video on Demand platform, sparked my interest in modern web development. I have developed a strong attention to detail and a commitment to high-quality user experiences through effective collaboration with developers, designers, and content editors. Proficient in **React** and **TypeScript**, I have completed personal projects and had my first freelance experience. I am particularly passionate about creating responsive and accessible designs that enhance user engagement.

🛠 PROFESSIONAL EXPERIENCE

PlayersJourney

Freelance Web Developer

10/2024 | Berlin, Germany

- **Designed, built, and deployed a responsive landing page** for the SPEAK project using **React and TypeScript**.
- **Collaborated closely with stakeholders** to ensure alignment on design and functionality, resulting in a polished final product that met all of the clients expectations.
- **Ensured seamless deployment**, implementing best practices in front-end development to enhance site responsiveness and user experience.

Telewizja Polska SA

QA Engineer

01/2022 – 12/2022 | Warsaw, Poland

- **Performed manual testing** for the revamp of the TVP Video on Demand platform and **swipeto.pl** , focusing on functional and regression testing to ensure quality and performance, while identifying and reporting bugs using JIRA.
- **Collaborated with a software house** during the development of the updated TVP Video on Demand platform, facilitating effective communication between testing and development teams for timely bug resolution.
- **Worked on bug identification and resolution** for both product releases and existing platform issues, ensuring a smooth user experience across all products.
- **Worked with Frontend Development team** to align on project goals and requirements, ensuring thorough understanding and execution of testing processes.
- **Executed regression tests** and followed up on bug reports, contributing to the smooth functionality and successful launch of both products.
- Participated in **daily standup meetings**, reporting on test completion and progress, and maintaining alignment with Agile project management practices.

Telewizja Polska SA

Assistant to Product Manager & Internal Tech Support

02/2020 – 12/2022 | Warsaw, Poland

- **Collaborated with the TVP VOD Product Manager** to monitor, manage, and develop the VOD platform and upcoming services, resulting in improved functionality and enhanced user experiences.
- **Partnered with developers and graphic designers** to introduce new features and improve customer experience on the main TVP websites, leading to increased user engagement and satisfaction.
- **Implemented developmental changes** across various platforms using internal and CMS tools, enhancing platform performance and functionality.
- **Played a key role in the internal tech support on-call rotation** and ensured 100% uptime for customer-facing platforms during TVP's web coverage of the 2020 Tokyo Olympics, resolving technical issues in real-time to support seamless streaming for millions of viewers.

COURSES

Full Stack Open

University of Helsinki

Online course

04/2023 – 09/2023

Course into modern

Javascript web

applications development.

Focused on building

single-page apps with

ReactJS that use REST

APIs built with Node.js.

MongoDB was used for

databases. Advanced React

state management with

state reducers and Redux.

A lot of emphasis put on

testing backend, frontend

and end to end. Introduced

me to test-driven

development.

Web Development

Bootcamp

bootcamp.dev

02/2023 – 06/2023

Bootcamp focused on

building full stack web

applications. Technologies

used: React, TailwindCSS,

NextJS, Node.js, Express.js,

SQLite and Prisma.

EDUCATION

Quantitative Methods in Economics and Information Systems

Warsaw School of

Economics

10/2015 – 05/2019

Warsaw, Poland

Economics: Micro and

Macroeconomics,

Econometrics, Statistical

Methods, Modelling and

Analysis, Optimization

Methods.

Thesis: Factors influencing

the value of football

players in the transfer

market - statistical model

- **Orchestrated the realization of six iTeatr theater performance live streams** for elementary schools, ensuring flawless organization and delivery, thus enhancing educational experiences for students and teachers.

LANGUAGES

Polish: Native • **English:** Proficient • **German:** Communicative

SKILLS

Programming

Javascript, Typescript

Technologies

ReactJS, Node.js, Express.js, TailwindCSS, HTML5, NoSQL databases, MongoDB

Tools

Git, Github, Jest, Postman, JIRA

Concepts

Distributed systems, microservices architecture, Test-Driven-Development, RESTful APIs
